Lesson 3: “Inferring Meaning”

Presented by Mr. Kem Virath

# Definition

- + What is inferring meaning?
- + It is to understand something that the writer does not say directly.

## How to infer meaning

- Look for nouns, verbs, adjectives, and adverbs
- Try to imagine what is happening

## Example

**Dany came into the office and sat down.** Makara continued working. He did not look up. Finally, Dany asked, “Where is my document ?” Makara stopped working. “What document ?” he asked. **“You know what document I am talking about, don’t you!”** **shouted Dany.**

He’s at work.

Dany thinks Makara has his document.

Dany is angry.

# Think

- What do the nouns, verbs, adjectives, and adverbs describe?
- What ideas do the words give?
- What is the writer really trying to say?

**Thank You!**
