Lesson 8: “Identifying Time Order”
Presented by Mr. Kem Virath

Time-Order Words
Title: _____ Author: _____

First, _____

Then, _____

Next, _____

After that, _____

Finally, _____

Last, _____

Definition

- + What is Identifying Time Order?
- + It is to understand when things happened.

How to identify text organization

- Look for any days, months, and years.
- Look for any times.
- Check the ages of people.
- Look for words like *then, before, after, next...*

Example

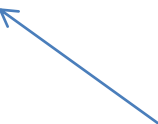

Makara's Education

Makara started his elementary school **in 2002**. He was **six years old**. He went to Toul Svay Prey Elementary School. **After six years**, Makara went to Sisovat High School. He stayed there **until he was 17**. After he finished his high school, Makara went to a college **for four years** to pursue his bachelor degree in education.

Year

Time duration

Time duration

Ages of people

Ages of people

Think

- How can I find out when this happened?
- What happened before and after?
